**Want a little H.U.G.? Ed Halligan's Ultimate Gadget (H.U.G.<sup>™</sup>) in the K.I.S.S.<sup>®</sup> series is available in both bead-blast and non-reflective black titanium nitride coating.**

How do you follow one of the most successful designs in modern knife history? Ed Halligan's original two-piece K.I.S.S.<sup>®</sup> (Keep It Super Simple) money clip knife has been a sensation for nearly a decade. But we call this two-piece design Halligan's Ultimate Gadget (H.U.G.<sup>™</sup>) because it is virtually as small, simple and lightweight as the K.I.S.S., but so much more sophisticated and versatile.

Like the K.I.S.S., the H.U.G. is a frame-lock folder with a single-sided blade. However, Ed has refined almost every aspect.

The 2.30" blade is now a modified spear point with a single-side grind which seals against the frame. It is more useful for the type of pen knife tasks most users will give the knife. Blade material is high-carbon stainless steel in a bead-blast finish, and both Razor-Sharp or Combined Razor-Sharp and Triple-Point<sup>™</sup> Serrated edges are available in the larger-size H.U.G.

The frame, also bead-blast high-carbon stainless steel, now uses an ingenious internal frame lock. A single Zytel<sup>®</sup> scale makes the handle fit the hand better, and also helps prevent the blade from accidental opening. A finger choil on the bottom of the frame and friction grooves at the thumb area make for a more secure grip, and give more comfort during extended use.

A compact custom stainless steel pocket/money clip makes this a handy and useful personal carry in all situations.

Ed has also designed a smaller model, the H.U.G.<sup>™</sup> 2, which is about the size of his very successful P.E.C.K.<sup>®</sup> (Precision Engineered Compact Knife), with a 1.78" blade. Again, this little gem weighs only 1.5 ounces and fits in pocket or purse. It's a handy pen knife, money clip and emergency knife.

For those who want a H.U.G.<sup>™</sup> **in the Dark**, all three models are now available in non-reflective black titanium nitride blade and frame coating, plus black hardware and a black Teflon<sup>®</sup>-plated clip.

Yes, the shape is different from the K.I.S.S. and more refined, but the purpose remains the same—high utility from a minimal design. And like the original K.I.S.S. knife series, all H.U.G. models are excellent values, built to the highest-quality standards.

So whether you think of it as Halligan's Ultimate Gadget or High Utility Gear, never turn down a little H.U.G.

Suggested retail price for the larger bead-blast H.U.G. models is \$49.99, while the bead-blast H.U.G. 2 is only \$39.99. MSRP for the black titanium nitride-coated models is an additional \$10.00.

The H.U.G. family is available in retail clompacts as the 5570C, 5580C, and 5590C.
